

# SurfiSol 315 Cleaner & Degreaser

**SurfiSol 315** is extremely versatile in its application, utilizing powerful and natural surfactants to aggressively break the bonds of a wide range of contaminants.

In an effort to meet environmental & safety standards, common off the shelf solvents, surfactants and degreasers tend to sacrifice performance. **SurfiSol 315** not only meets but often exceeds those standards while also achieving your performance requirements.

**SurfiSol 315's** most remarkable feature is its ability to break the bonds of contaminants from a surface – quickly. By maintaining this separation, it provides faster wetting, aggressive penetration and overall better cleaning while rinsing totally free.

This product is extremely effective in cleaning carbon deposits as well as a wide range of organic contaminants. Along with its high user and environmental safety rating, **SurfiSol 315** is also approved for the airline and food industries.

## PRODUCT APPLICATIONS

- Fixed-wing & helicopter aircraft (interior / exterior cleaning)
- Boeing & MacDonald / Douglas approved
- Transportation
- Public transit – commuter rail, bus fleets, & maintenance shops
- Forestry equipment – pulp & paper mills, saw mills
- Wash bays – high pressure washers /foamers & steam cleaning
- Mining equipment (underground & surface)
- Marine maintenance
- Oilfield pumps, motors
- Agricultural industry – farm equipment
- Camp facilities – kitchens, floors, equipment
- Machine shops, drill presses, shop floors & walls
- Ultrasonic tanks, generators, concrete floors
- Animal fats, blood, protein
- Printing press maintenance (water-based inks)
- Acrylic graphite, carbon, brake dust
- RVs, motorcycles, ATVs
- Steam cleaning
- Light oil, lubricants, grease
- Manufacturing plants – floors, maintenance cleanup, robotics, hydraulics
- Truck & automotive detailing
- Smoke damage

## TESTIMONIAL

“Westjet is always concerned with both the well-being and health of our people and the environment when using cleaning products which may contain potentially hazardous ingredients. SurfiSol 315 has proven to be safe for the people using it, and friendly to the environment.”
